

Recombinant Anti-TNFSF15 Antibody (V3S-1022-YC1223)

Cat. No.: V3S-1022-YC1223

Summary

Description	This product is a recombinant mouse antibody provided by CreativeBiolabs. The antibody is specific for TNF Superfamily Member 15, the protein encoded by this gene is a cytokine that belongs to the tumor necrosis factor (TNF) ligand family. It can be used for TNFSF15 detection in Enzyme-Linked Immunosorbent Assay. It was expressed in mammalian cells (293F or CHO) with antibody encoding genes and purified by affinity chromatography. Each lot of this antibody is quality control tested by SDS-PAGE and SEC-HPLC analysis. For highly sensitive assays, we recommend the ultrapurified form of the product, which has a lower endotoxin limit than standard antibody, less than 1 EU/mg or even 0.1 EU/mg.
