

Recombinant Anti-CD4 Antibody (V3S-1022-YC1959)

Cat. No.: V3S-1022-YC1959

Summary

Description	This product is a recombinant Human antibody provided by CreativeBiolabs. The antibody is specific for Cd4 Molecule. It can be used for Cd4 Molecule detection in Enzyme-Linked Immunosorbent Assay. It was expressed in mammalian cells (293F or CHO) with antibody encoding genes and purified by affinity chromatography. Each lot of this antibody is quality control tested by SDS-PAGE and SEC-HPLC analysis. For highly sensitive assays, we recommend the ultrapurified form of the product, which has a lower endotoxin limit than standard antibody, less than 1 EU/mg or even 0.1 EU/mg.
